

## FX7 / V1 Housing

### Pro HD Imaging for the Global Traveler

The **Gates FX7/V1 Housing** is packed with pro features like iris, focus, ND filter and white balance controls, adjustable handle grips, optional EM43 high resolution color monitor and Gates premium ports for the sharpest, clearest HD images. Yet the FX7/V1 with SP44 port and 1620 Pelican rolling case weighs in under the 50lb/23kg airline baggage limit.

Of course, the FX7/V1 is classically Gates: tough, 'bulletproof' construction, reliable mechanical controls and a two year *renewable* warranty. Reliability, durability, dependability – the Gates hallmark for over 37 years. Don't take a chance...Take a *Gates!*

### Key Features

**Durable**, "Bulletproof" machined aluminum, black type III 'hard' anodize finish, and sealed with a nickel-acetate process.

**Reliable Fingertip Controls** are 100% Mechanical -- no sticky buttons, faulty electronics or dead batteries!

**External Color Monitor**  
With the EM43 hi-res monitor, HD framing and focus are easy. (Optional)

**Adjustable Handle Grips** let you find the perfect position for comfort and control.

#### WHITE BALANCE

**Pro Controls** such as manual focus, iris and white balance are standard.

**2-Year Warranty.** Only Gates offers a 2-year renewable warranty on all housings.

**Travel lighter**  
By leaving the ballast weight behind. A standard 4lb/1.8kg scuba weight can be used at your dive destination.

**Accommodates all Camcorder Battery Sizes** up to NPF-970 for maximum shooting between re-charges.

**Interchangeable Ports** for easy switch amongst Standard, Macro, and Super Wide Angle.

**Quality Optics** means clarity, sharpness and no vignetting (cutoff dark corners) to spoil your images.

## Specifications

---

### \* Controls (All Mechanical)

- \* Power
- \* Zoom
- \* Internal 'Flip' Color Filter
- \* Exposure / Iris on/off
- \* Pict Profile / Status Check
- \* Neutral Density Filter
- \* Sel / Push Execute Roller
