

EM43 High Resolution Monitor

Widescreen Color for Sharp Imaging

The Gates EM43 is a big 4.3" / 110mm color active matrix LCD to assist with framing and focus – even in bright sunlight.

Sophisticated features like power-on and auto-format sensing mean no worries about accidental battery depletion or different worldwide formats. A low battery light tells you when it's time to change the 8 AA cells, which can be alkaline (recommended), NiMH, NiCad or Lithium.

Of course, the EM43 comes with Gates 2 year renewable warranty and 'bulletproof' construction. Reliable, durable, dependable – the Gates hallmark for over 37 years.
