

GT14 Underwater Imaging Light

14,000 Lumens *and* 90 CRI in the same package

Advancing the frontier of underwater lighting, the Gates GT14 Underwater Imaging Light unites many practical features into a compact, travelable package. Up to 14,000 lumens of light into a wide, even 90° beam angle. A big, glove sized Power Ring rotates through 7 light levels that include a very low 'scouting mode' for night diving – just enough to see, navigate and setup a shot. Fuel gage and Light Level indicators are mirrored to provide a quick glance reading from either side. Water cooling contact just behind the LED arrays enables higher efficiencies for peak lumens output and longer burn times. Batteries are easily changed, and charged in 3 hours.

The Gates GT14 Light meets the demands of recreational divers to underwater cinematographers with untethered, powerful illumination. Backed by Gates distinguished support and warranty – a hallmark of our commitment to your success.

Key Features (Preliminary)

Powerful 14000 lumens from 2 LED Arrays.

Uniform and Powerful Effective Beam Angle covers the widest shots. 90° actual in water, >100° in air.

Durable, "Bulletproof" machined aluminum, black type III 'hard' anodize finish, and sealed with a nickel-acetate process.

Mirrored Light Level and Fuel Gage indicators provide at-a-glance reading from either side.

Safety features include physical lockout, safety timer lockout and thermal overload shutdown.

Quick change batteries for zero downtime. 3 hour charge.

7 power levels. Run times of 30 minutes at full power to over 10 hours at low power 'scouting' mode.

Optional Seal Check fitting for surety of seal *before* entering the water.

Innovative Water Cooling to the LED Arrays increase light output efficiencies and run times.

Gates Warranty and legendary service stand behind the GT14's.

GT14 Specifications (Preliminary)

* Power Level / Run Time

- * 7 Power Levels
- * Full Power: 30 minute run time.
- * Half Power: > 75 minutes
- * Low Power (Scouting mode): > 10 hours

* Dimensions

- * 5.2W x 3.3H x 8.4L in / 132W x 84H x 214L mm
- * 5.3H in / 135 mm with Mount Ball

* Warranty

- * 2 Years material / workmanship
- * 1 year electronics
- * 90 days batteries

* Light Output / CRI

- * 14000 Lumens / 90 Color Rendition

* Construction

- * Machined Aluminum w/ Type III 'hard' anodize & Nickel Acetate Seal. Stainless steel hardware.

* Weight

- * **Dry** 3.1 lbs / 1.4kg
- * **Underwater** 19 oz negative

* Effective Beam Angle

- * 90° Actual Underwater

* Depth Rating

- * 450 feet / 137 meters

GT14 Optional Accessories

Seal Check fitting to verify integrity before entering the water.

Spare batteries for quick change between dives.

Filter Mount
Add any 52mm filter for custom color, diffusion or effect.

Don't Take a Chance....Take a *Gates!*
