

## ALEXA MINI Housing

### Compact, Travelable ARRI 4K for Underwater Cinema and Natural History

Specifically designed for the ARRI ALEXA Mini camera, the **Gates MINI** is a deeply integrated marine imaging system, blurring the lines between housing and camera. Twelve user-assignable controls interface directly with the ARRI Mini allowing access to frequently used functions like white balance, peaking, display overlay, and frame rate. Gates familiar mechanical Focus / Iris / Zoom controls provide precision handling of hundreds of PL, Canon and Nikon lenses with the same Lens Gear Drive system as **MINI's** relatives in the Gates cinema-grade family.

The seasoned professional will recognize many signature features in the **Gates MINI**: durable machined aluminum and stainless construction; clean, uncomplicated, user friendly design; Gates precision ports for clear, sharp images; extensive line of accessories and custom configurations; and Seal Check II for housing integrity verification. Experts know that failure is not an option, so they never take a chance.... they take a Gates!

*Compatible Cameras: ARRI ALEXA Mini*

### Gates Signature Features

**ST5 Compact External Monitor housing** for the Transvideo Starlite is **included** with MINI. The larger TVL55 is optional (Starlite HD5 is not included)

**Quick media change.** Flip up the V-Lock battery for fast CFast swap on the ARRI Mini.

**User-assignable controls** for direct access to white balance, frame rate and many others.

**Changeable Buoyancy and Trim**  
Add / remove trim weights for ideal balance -- just the way you like it.

**Clean, Uncomplicated Design** with 100% mechanical controls – no complicated mechanisms or electronics to fail. Simplicity = Reliability

**Precision Ports** means clarity, sharpness and no vignetting (cutoff dark corners) to spoil your images.

**Seal Check** assures housing integrity *before* entering the water.

**2-Year renewable warranty**, legendary service, and factory direct support = your success.

## Specifications
